Next to a highly developed industry, international tourism is the most important part of the national economy. For further information just open the website [www.wien.info](http://www.wien.info) in a browser and choose a language in the sub-menu "Deutsch"!

Vienna is served by Vienna International Airport, located 18 km southeast of the city centre. The Vienna S-Bahn line S7 provides the cheapest local service to the city centre taking approx. 25 minutes. The more expensive City Airport Train connects the airport directly to Wien Mitte railway station, close to the city centre, in just 16 minutes. Furthermore, there are buses from the airport to various places in Vienna. Of course, there are several taxi companies that operate at the airport and car rental facilities are also available. The railway system connects Vienna with other European cities, like Munich, Venice, Budapest, Prague, Bratislava and Zürich. Vienna has multiple road connections including motorways. In Vienna public transport is provided by buses, trams and 5 underground metro lines. Concerning the weather in November the lowest temperatures can range between -4 and 3 degrees Celsius and the highest between 9 and 16 degrees Celsius.
